PROFESSIONAL EXPERIENCE

- Sr. Full Stack Developer | Wings Pharmaceuticals, Delhi**

May 2026 – Present

PHP, Laravel, CodeIgniter, Node.js, Express.js, React.js, MySQL, MongoDB, AWS

 - PHP / Laravel:** Maintain and enhance the Udaan web application (PHP, Laravel, CodeIgniter, MySQL) — production fixes, new modules, and real-time chat.
 - Node.js:** Delivered three internal platforms (Distributor Management, Lead & PO Management, Gate Entry) with React.js UIs, Node.js / Express REST APIs, JWT auth, MongoDB and MySQL via Prisma.
 - Cloud:** Designed AWS hosting for pharma systems (EC2 Auto Scaling, ALB, S3, RDS, CloudWatch) and manage Linux / Nginx plus GitHub Actions CI/CD.
 - Security:** Hardened production APIs with HTTPS, WAF rules, RBAC, and MSG91 SMS OTP (generate, verify, expiry, retry).
 - Performance:** Optimised SQL on 10M+ row tables, cutting execution time on high-traffic endpoints.
- Full Stack Developer (Laravel & Node.js) | Learnfly — GETYN SaaS, Delhi**

May 2025 – Apr 2026

Laravel, PHP, MySQL, Node.js, Express.js, MongoDB, Redis, React.js

 - Owned feature delivery and production support across 14+ live applications in one multi-tenant SaaS ecosystem.
 - Laravel:** Tenant-aware middleware, per-tenant RBAC (Spatie, Gates & Policies), JWT / OAuth2 (Auth0 / SSO), and Twilio SMS 2FA.
 - Payments:** Integrated Rebilly, Recurly, Razorpay, and XPay with webhook handling and failure-recovery for subscriptions and one-time billing.
 - Node.js:** Built Express.js + MongoDB services for event logging, webhook processing, and real-time notifications.
 - Tuned Eloquent queries, eager loading, and Redis caching; shipped zero-downtime releases via GitHub Actions.

Laravel, PHP, MySQL, Node.js, MongoDB, C# / WinForms

- Delivered 18+ web applications across ERP, CRM, LMS, HRM, and government portals using Laravel, PHP, and MySQL, from requirements through production.
- Built a proximity-based exam-centre allocation engine for 10,000+ applicants, reducing manual assignment by ~70% and processing time from days to minutes.
- Redesigned MySQL queries and schema for ~40% faster response on high-traffic endpoints.
- Architected a Google Drive-style document platform with nested RBAC, versioning, AES-256 encryption, and audit logging.
- Shipped Aadhaar KYC and SMS / email APIs backed by Node.js / MongoDB services; built two C# WinForms tools for OMR result processing and batch report / certificate generation.

.NET Developer | KKM Infra Pvt Ltd, Noida**Jan 2022 – Feb 2023***.NET Core 6, C#, SQL Server, WinForms*

- Developed contractor registration, project management, material requisition, and work-order modules on .NET Core / C# / SQL Server.
- Built a WinForms desktop tool for construction quantity takeoff, cost estimation, and requisition generation.
- Designed stored procedures and RBAC for project managers, engineers, and admins.
