PROFESSIONAL SUMMARY

Full Stack Developer with 4+ years of experience designing and developing enterprise-grade web applications, multi-tenant SaaS platforms, secure RESTful APIs, cloud infrastructure, and business-critical systems. Skilled in Laravel, PHP, AWS, MySQL, Redis, System Design, DevOps, Authentication & Authorization, Payment Gateway Integration, and Performance Optimization.

Experienced in leading application architecture decisions, implementing cloud-native solutions on AWS, managing CI/CD pipelines, integrating third-party services, and delivering scalable products used by thousands of users across Government, HRMS, CRM, LMS, ERP, and SaaS domains.

PROFESSIONAL EXPERIENCE

Full Stack Developer — Wings Pharmaceuticals | Delhi Pitampura

May 2026 – Present

- Owns full-stack development and infrastructure for enterprise-grade pharmaceutical internal platforms and client-facing systems.
- Architected AWS infrastructure: EC2 Auto Scaling, Load Balancers, S3 file storage, RDS managed database, and CloudWatch monitoring & alerting.
- Led system design & architecture planning for scalable applications from the ground up.
- Managed Linux (Ubuntu) servers — Nginx configuration, cron jobs, and automated deployment pipelines.
- Developed RESTful APIs and integrated third-party services with a focus on security hardening (HTTPS, firewall, RBAC).
- Implemented CI/CD pipelines and performed database optimization — indexing, query tuning, and performance profiling.
- Integrated MSG91 OTP service for SMS-based two-factor authentication (2FA) — implemented OTP generation, delivery via MSG91 API, verification logic, expiry handling, and retry management for secure user login flows.

Laravel Developer — Learnfly (GETYN SaaS Platform) | Delhi Janakpuri

May 2025 – Apr 2026

- Owned end-to-end maintenance and feature evolution of the GETYN multi-product SaaS ecosystem.
- Architected multi-tenant SaaS applications with isolated data environments, tenant-aware middleware, and scalable RBAC per tenant.
- Built User Management & Role Management modules with guard management and policy-based authorization using Laravel Gates & Policies.
- Integrated Twilio SMS OTP service for two-factor authentication (2FA) — OTP generation, delivery, verification, and expiry logic.
- Integrated 4 payment gateways: Rebillly, Recurly, Razorpay, XPay — covering Subscriptions & One-time Payments with webhook handling.
- Designed RESTful APIs secured with JWT Auth and OAuth2 (Auth0/SSO); configured CI/CD pipelines via GitHub Actions.
- Optimized database performance via Eloquent ORM query tuning, eager loading, and Redis caching; maintained 14+ live projects.

Laravel Developer — Multigraphics Group | Delhi Okhala

Feb 2023 – Apr 2025

- Delivered 18+ enterprise projects — ERP, CRM, LMS, HRM, and government portals — using Laravel and Core PHP.
- Built comprehensive Role & Permission Management system with dynamic role creation, module-level permissions, and middleware-guarded routes.
- Integrated Aadhaar KYC, SMS/Email APIs (OTP, transactional notifications), and Twilio-compatible SMS channels for secure authentication flows.
- Architected a Google Drive-style document storage system with RBAC, file versioning, AES encryption, and audit trail logging.

- ▶ Automated exam center allocation for 10,000+ applicants using a proximity-based algorithm — reduced manual effort by 70%.
- ▶ Optimized MySQL queries and schema design resulting in 40% performance improvement on high-traffic endpoints.

.Net Developer — KKM Infra Pvt Ltd | Noida Sec 63

Jan 2022 – Feb 2023

- ▶ Assisted in the development and maintenance of a Construction Management System using ASP.NET, C#, SQL Server, HTML, CSS, JavaScript, and jQuery.
- ▶ Developed modules for contractor registration, project details management, and work order tracking under the guidance of senior developers.
- ▶ Created forms and reports for material requisition, material issue, and site progress monitoring.
- ▶ Worked on database design, stored procedures, and SQL queries for project, contractor, and inventory-related data.
- ▶ Participated in the implementation of role-based login and user access management for different project stakeholders.
- ▶ Fixed bugs, enhanced existing features, and provided technical support for deployed application
- ▶ Assisted in generating reports related to project status, material consumption, and contractor activities.
- ▶ Collaborated with team members during requirement gathering, testing, deployment, and user acceptance testing (UAT).
- ▶ Gained hands-on experience in the software development lifecycle, database management, and web application development using the Microsoft .NET technology stack.

KEY PROJECTS

HR Management System

Comprehensive HR Management platform featuring a full Recruiter module and campus hiring workflow, streamlining end-to-end talent acquisition and workforce management.

- ▶ Built Recruiter module covering job posting, applicant tracking, interview scheduling, and offer management with role-based pipelines.
- ▶ Implemented Campus Hiring workflow for bulk student recruitment, college coordination, placement drives, and batch onboarding.
- ▶ Developed core HR modules: employee directory, attendance, leave management, payroll integration, and performance tracking.
- ▶ Designed RBAC-driven dashboards for HR Managers, Recruiters, Department Heads, and Employees with granular permissions.
- ▶ Integrated email/SMS notifications for interview reminders, offer letters, and onboarding tasks via automated event-driven triggers.

Tech Stack: Laravel, MySQL, Vue.js, React.js, REST APIs, AJAX

BUHS Entrance Exam Portal

Government portal (Bihar University Health Sciences) managing 10,000+ applicants with automated exam center allocation.

- ▶ Implemented OTP authentication, secure registration, role-based access for admin/staff, and middleware-based audit logging.
- ▶ Built a proximity-based algorithm for automated exam center allocation, eliminating manual assignment workload.

Tech Stack: Laravel, MySQL, Blade, AJAX, SMS API | Live: buhsjet.in

GETYN SaaS Platform

Multi-product SaaS ecosystem with multi-tenant architecture, 4 payment gateways, and complex third-party API integrations.

- ▶ Built multi-tenant data isolation, tenant-specific customizations, and live uptime monitoring & alerting infrastructure.
- ▶ Integrated Rebillly, Recurly, Razor pay, and XPay for subscription billing and one-time payments with webhook processing.

Tech Stack: Laravel, PHP, MySQL, REST APIs, React, JavaScript, Razor pay, Recurly, PayPal

Document Storage System (Google Drive Clone)

Enterprise-grade secure cloud storage with nested folder hierarchy, RBAC, file versioning and audit trails.

- ▶ Upload/download/rename/move via AJAX, AWS S3 integration for file storage, and activity logging middleware.

Tech Stack: Laravel, MySQL, AWS S3, Blade, RBAC

Custom CRM — Lead Management Dashboard

Full CRM with lead tracking, customer profiling, automated follow-ups, and real-time analytics with JWT-secured API endpoints.

- Built User & Role Management with module-level permissions, activity logs, and real-time lead pipeline dashboards.

Tech Stack: Laravel, MySQL, JavaScript, Blade, AJAX

Learning Management System (LMS)

Full-featured LMS with course enrolment, progress tracking, assignments, assessments, and performance analytics.

- Role management for Students, Teachers, and Admins with middleware-controlled access per module.

Tech Stack: Laravel, MySQL, Blade, JavaScript, AJAX

T E C H N I C A L S K I L L S

Backend	PHP 8.x, Laravel (Eloquent ORM, Middleware, Service Providers, Artisan, Queues, Events), Core PHP, .NET Core, Node.js, Microservices, Codelgniter, CakePHP.
Frontend	Vue.js, React.js, JavaScript (ES6+), HTML5, CSS3, Bootstrap, jQuery, AJAX, Blade Templates.
API & Auth	RESTful APIs, JWT Authentication, OAuth2, Auth0/SSO, Sanctum, Passport, API Rate Limiting, OpenAI/LLM APIs, AI Chatbots, Generative AI, Prompt Engineering, Python.
User & Roles	RBAC (Role-Based Access Control), Laravel Gates & Policies, Spatie Permission Package, Multi-Tenant Architecture
Integrations	Twilio SMS OTP (2FA), MSG91 OTP (2FA), Aadhaar KYC, Razor pay, Recurly, Rebilly, XPay — Subscriptions & One-time Payments, Webhook Handling, SMS/Email APIs
Cloud & DevOps	AWS EC2 (Auto Scaling, Load Balancers), AWS S3, AWS RDS, CloudWatch, Linux/Ubuntu Server Management, Nginx, Docker (Basic), GitHub Actions CI/CD, Git, Bitbucket, cPanel, Cron Jobs
Database	MySQL (Query Optimization, Indexing, Transactions), Redis Caching, Eloquent Relationships, Performance Profiling
Other	System Design & Architecture, Unit Testing, Security Hardening (HTTPS, Firewall, RBAC), AES Encryption, Audit Logging, Debugging, Performance Optimization

E D U C A T I O N

Master of Computer Applications (MCA)

Abdul Kalam Technical University (AKTU)

2021 – 2023
